

### Port Fuel Tank Info

Fuel tank bolts as seen looing aft.

“Dimples” at 4:30. Fuel measured with stick screwed in.

Gallons of Diesel	Inches of fuel on stick, measured from stick bottom	Inches of fuel on stick, measured from stick bottom, stick NOT screwed in
10	3 ½	2 ½
20	7	6
30	9 ½	8 ½
35	11	10
40	13 ½	12 ½
45	14	13
50	15	14

Threads on tank are one-inch long, so subtrack one inch from these readings if stick NOT screwed in.

$$Gallons = 3.4(Dipstick) + 0.9$$
